

I writing to ask that the LPFM not be allowed to take broadcasting priority over current FM translator service. My family and I listen to K-LOVE every day of the week and we hear positive and encouraging music. The news stories are even presented in a more positive manner and include uplifting news. I also know that my friends listen to K-LOVE regularly and displacing K-LOVE with an LPFM broadcaster would disrupt the programming that we count on for encouraging music. K-LOVE is listener supported, which in and of itself should indicate the need and desire to listen to such an uplifting station. The listeners are paying for commercial-free Christian music and deserve to use the FM translators currently in use. I have heard so many songs and stories on K-LOVE at just the right moment when this earthly life is getting to me. K-LOVE serves the public interest by providing the music, DJs, prayer line, and encouraging words. Please, do not allow the LPFM broadcaster to take over the FM translator being used by K-LOVE. Thank you for your time and careful consideration. God bless!
